Penn Valley Constructors, Inc.

Aerial view of Penn Color, Inc. in Hatfield, PA USA. Planning and design began in 1993 and construction was completed late in 2000. The 230,000 SF complex consists of thirteen individual buildings or facilities (not all shown here). Architectural features include damage limiting construction, explosion venting, and multiple skylights. Mechanical features include A triple F fire supression system, VOC collection system and destruction system (thermal oxidizer). Process piping systems included chilled water, hot water, nitrogen, domestic water, compressed air and solvent (raw material) distribution system for process purposes.
